APPROVAL OF FINANCIAL STATEMENTS

I am responsible for the preparation of these annual financial statements year ended 30 June 2014, which are set out on pages 1 to in terms of Section 126 (1) of the Municipal Finance Management Act and which I have signed on behalf of the Municipality. The annual financial statements have been prepared in accordance with GRAP.

I acknowledge that I am ultimately responsible for the system of internal financial control and that the system of internal control provides reasonable assurance that the financial records can be relied on.

I have reviewed the Municipality's cash flow forecast for the year to 30 June 2014 and is satisfied that the Municipality can continue in operational existence for the foreseeable future.

The external auditors are responsible for independently reviewing and reporting on the Municipality's financial statements.

I certify that the remuneration of Councillors and in-kind benefits are within the upper limits of the framework envisaged in Section 219 of the Constitution, read with the Remuneration of Public Officer Bearers Act and the Minister of Provincial and Local Government's determination in accordance with this Act.

Mr. H.S.D. Wallace Municipal Manager 31 August 201

The municipality makes monthly contributions for health care arrangements to the following medical aid schemes:

Bonitas; LA Health; Hosmed; Samwumed; and Keyhealth.

4.1

The Future-service Cost for the ensuing year is estimated to be R2 687 900, whereas the Interest Cost for the next year is estimated to be R3 509 800.

Sensitivity Analysis on the future service cost and interest cost

		Current Service	Interest Cost	Total	
Assumption		Cost	R	R	% change
Central Assumptions		2 687 900	3 509 800	6 197 700	
Central Assumptions		2 007 300	3 303 600	0 (3) 100	
The effect of movements in the assumptions a	re as follows:				
Health care inflation	1%	3 209 300	4 051 000	7 260 300	17%
Health care inflation	-1%	2 234 300	3 043 500	5 277 800	-15%
Discount rate	1%	2 204 900	3 349 800	5 554 700	-10%
Discount rate	-1%	3 322 100	3 678 000	7 000 100	13%
Post-retirement mortality	-1 year	2 778 100	3 641 800	6 419 900	4%
Average retirement age	-1 year	2 800 400	3 698 000	6 498 400	5%
Continuation of membership at retirement	-10%	2 117 600	3 058 100	5 175 700	-16%
				2014	2013
Key actuarial assumptions used:				%	%
i) Rate of interest					
Discount rate				9.05%	8.78%
Health Care Cost Inflation Rate				8.23%	7.67%
Net Effective Discount Rate				0.76%	1.03%

A discount rate of 9,05% per annum has been used. The corresponding index-linked yield at this term is 1,70%. These rates do not reflect any adjustment for taxation. These rates were deduced from the JSE Zero Coupon bond yield after the market close on 30 June 2014.

ii) Mortality rates

The PA 90 ultimate table, rated down by 1 year of age was used by the actuaries.

iii) Normal retirement age

It has been assumed that in-service members will retire at age 60, which then implicitly allows for expected rates of early and ill-health retirement.

CAPE JOINT PENSION FUND

The Municipality requested detailed employee and pensioner information as well as information on the Municipality's share of the Pension and Retirement Funds' assets from the fund administrator. The fund administrator confirmed that assets of the Pension and Retirement Funds are not split per participating employer. Therefore, the Municipality is unable to determine the value of the plan assets as defined in GRAP 25.

As part of the Municipality's process to value the defined benefit liabilities, the Municipality requested pensioner data from the fund administrator. The fund administrator claim that the pensioner data to be confidential and were not willing to share the information with the Municipality. Without detailed pensioner data the Municipality was unable to calculate a reliable estimate of the accrued liability in respect of pensioners who qualify for a defined benefit pension.

Therefore, although the Cape Joint Retirement Fund is a Multi Employer fund defined as defined benefit plan, it will be accounted for as defined contribution plan. All the required disclosure has been made as defined in GRAP 25.31.

CAPE RETIREMENT FUND

The contribution rate payable is 9% by members and 18% by Council. The last actuarial valuation performed for the year ended 30 June 2013 revealed that the fund is in a sound financial position with a funding level of 105.1% (30 June 2012 - 108.0%).

CAPE JOINT PENSION FUND

The contribution rate payable is 9% by members and 18% by Council. The last actuarial valuation performed for the year ended 30 June 2013 revealed that the fund is in a sound financial position with a funding level of 99.7% (30 June 2012 - 99.4%).

DEFINED CONTRIBUTION FUNDS

Council contribute to the Municipal Council Pension Fund, SALA Pension Fund and SAMWU National Provident Fund which are defined contribution funds. The retirement benefit fund is subject to the Pension Fund Act, 1956, with pension being calculated on the pensionable remuneration paid. Current contributions by Council are charged against expenditure on the basis of current service costs.

NOTES ON THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 June 2014

NOTES ON THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 June 2014

13	PROPERTY, PLANT AND EQUIPMENT (CONTINUED)	2014 R	2013 R
	Assets pledged as security:		
	No property, plant and equipment, save for those financed from finance leases, are pledged as security for finance.		
	Third party payments received for losses incurred:		
	Payments received (Excluding VAT)	226 910	401 174
	Surplus/Deficit	226 910	401 174
	Impairment of property plant and equipment for the year		
	Impairment charges on Property, plant and equipment recognised in statement of financial performance.		
	Land and Buildings	8 643 050	7 576 531
		8 643 050	7 576 531
	The current economic climate with resultant declining property values is the main reason for impairment charges.		
	Fair value of Land and Buildings was determined by a registered Valuator - Mr W.M. De Kock of W.M. de Kock and Associates. The method used for determining the open market value of the improvements is the accrued depreciation method of valuation. Accrued depreciation is a loss in value from the replacement cost of improvements due to physical deterioration, functional obsolescence and external obsolescence. After identifying and measuring the separate elements of the accrued deprecation, the value of the applicable type of depreciation are deducted from the replacement cost of the improvements.

	Debts written Off	_		

Housing loans are not granted to officials of the municipality. The outstanding amount relates to prior years and is still collectable. Staff were entitled to housing loans which attract interest at 3-10% per annum and which are repayable over a maximum period of 20 years. These loans are repayable up to the year 2020.

Balances of debtors with arrangements to pay off old debt for longer than 1 period are transferred from current receivables to long-term receivables. Due to the low level of payments and consistent with the accounting policy, all these debtors are impaired.

All remaining amounts are collectable.

	Consumer debtors are payable within 30 days. This credit period granted is considered to be consistent with the terms used in the public sector, through established practices and legislation. Discounting of trade and other receivables on initial recognition is not deemed necessary in terms of IGRAP1.		
	Concentrations of credit risk with respect to trade receivables are limited due to the municipality's large number of customers. The municipality's historical experience in collection of trade receivables falls within recorded allowances. Due to these factors, management believes that no additional risk beyond amounts provided for collection losses is inherent in the municipality's trade receivables.

21 RECEIVABLES FROM NON-EXCHANGE TRANSACTIONS (CONTINUED)

Rates debtors are are payable within 30 days. This credit period granted is considered to be consistent with the terms used in the public sector, through established practices and legislation. Discounting of rates debtors are not performed in terms of GRAP 104 on initial recognition.

Concentrations of credit risk with respect to trade receivables are limited due to the municipality's large number of customers. The municipality's historical experience in collection of trade receivables falls within recorded allowances. Due to these factors, management believes that no additional risk beyond amounts provided for collection losses is inherent in the municipality's trade receivables.

22	OPERATING LEASE ARRANGEMENTS	R R	R R
22.1	The Municipality as Lessor (Asset)		
	Balance on 1 July	442 097	272 777
	Movement during the year	47 155	169 320
	Balance on 30 June	489 252	442 097
	At the Statement of Financial Position date, where the municipality acts as a lessor under operating leases, it will receive operating lease income as follows:		
	Up to 1 Year	761 233	761 952
	1 to 5 Years	1 716 858	2 345 856
	More than 5 Years	1 694 541	1 826 775
	Total Operating Lease Arrangements	4 172 632	4 934 584

Theewaterskloof Municipality is leasing a number of land and some buildings to different rate payers for periods ranging from 2 to 99 years, with escalations of between 1% and 12% per year.

This lease income was determined from contracts that have a specific conditional income and does not include lease income which has a undetermined conditional income.

The leases are in respect of land and buildings being leased out for periods ranging until 2094

The municipality does not engage in any sub-lease arrangements.

The municipality did not receive any contingent rent during the year

23 CASH AND CASH EQUIVALENTS

Pr	imary Bank Account	11 240 631	6 794 698
Ca	all Investments Deposits	26 967 406	20 739 868
-			

Cash and cash equivalents comprise cash held and short term deposits. The carrying amount of these assets approximates their fair value. Outstanding deposits and outstanding cheques at year-end are recognised as part of cash and cash equivalents.

The municipality has one guarantee of R15 000 in the name of the beneficiary, Eskom.

An amount of R 430 224 (2013: R 430 224), included in Call Investment Deposits above, is invested in an institution which is under curatorship. The curators are encashing property developments financed by the investment company before distribution of funds will continue, however it is expected significant capital losses will be incurred. The dates of any possible future cashflows are not known at the reporting date and the full amount has been impaired due to the uncertainty of collectability.

The municipality has the following bank accounts:

Current Accounts

Caledon ABSA - Account Number 405 7866 237 (Primary Bank Account):	11 240 631	6 794 698
	11 240 631	6 794 698

Traffic account is cleared daily to Primary Bank Account.

Valuations on land and buildings are performed every four years. The last valuation came into effect on 1 July 2013. Rebates were granted on land with buildings used solely for dwellings purposes as follows: Residential

- The first R15 000 on the valuation is exempted.

- A further R85 000 on the valuation are exempt from property rates for all those households earning less than R4 501. (This exemption is also applicable to persons older than 60 and earning betweem R4 501 and R6 001).

Rates:
Residential
Commercial
Agricultural

0.650 c/R 0.68 c/R 1.450 c/R 0.137 c/R 1.36 c/R 0.17 c/R

Rates are levied annually and monthly. Monthly rates are payable by the 25th of the following month and annual rates are payable before 30 September. Interest is levied at the prime rate plus 1% on outstanding monthly rates.

Rebates can be defined as any income that the Municipality is entitled by law to levy, but which has subsequently been forgone by way of rebate or remission.

	Total Councillors' Remuneration	8 203 131	7 410 014
	In-kind Benefits		
	The Executive Mayor, Deputy Executive Mayor, Speaker and three mayoral committee members are full-time. They are provided with secretarial support and an office each at the cost of the Council.		
	I certify that the remuneration of Councillors and in-kind benefits are within the upper limits of the Framework envisaged in section 219 of the Constitution, read with the Remuneration of Public Office Bearer's Act and the Minister of Provincial and Local Government's determination, in accordance with this Act. Disclosure of the remuneration of individual Councillors are considered immaterial.		
32	H S D Wallace Municipal Manager DEBT IMPAIRMENT		
	Receivables from exchange and non-exchange transactions - Note 21	47 239 932	22 703 381
	Total Contribution to Debt Impairment	47 239 932	22 703 381
	The contribution for debt impairment on exchange and non-exchange receivables decreased due to the write-off of old debt in the prior year. However, the prospective implementation of changes to IGRAP1 for non-exhange receivables resulted in the first time recognition for impairment on traffic fines.		
	Impairment of traffic fines included above: Note	17 038 514	
33	DEPRECIATION AND AMORTISATION		
	Property Plant and Equipment	9 918 791	8 108 577

NOTES ON THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 June 2014

47 FINANCIAL RISK MANAGEMENT

The activities of the municipality expose it to a variety of financial risks, including market risk (comprising fair value interest rate risk, cash flow interest rate risk and price risk), credit risk and liquidity risk. The municipality's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the municipality's financial performance.

(a) Foreign Exchange Currency Risk

The municipality does not engage in foreign currency transactions.

(b) Price risk

The municipality is not exposed to price risk.

1% (2013 - 0.5%) Increase in interest rates

0.5% (2013 - 0.5%) Decrease in interest rates

(c) Interest Rate Risk

As the municipality has significant interest-bearing liabilities, the entity's income and operating cash flows are substantially dependent on changes in market interest rates.

The municipality analyses its potential exposure to interest rate changes on a continuous basis. Different scenarios are simulated which include refinancing, renewal of current positions, alternative financing and hedging. Based on these scenarios, the entity calculates the impact that a change in interest rates will have on the surplus/deficit for the year. These scenarios are only simulated for liabilities which constitute the majority of interest bearing liabilities.

The municipality did not hedge against any interest rate risks during the current year.	2014 R	2013 R
The potential impact on the entity's surplus/deficit for the year due to changes in interest rates were as follow:		

(426 161)

426 161

(788 565) 394 282

(d) Credit Risk

Credit risk is the risk that a counter party to a financial or non-financial asset will fail to discharge an obligation and cause the municipality to incur a financial loss.

Credit risk consist mainly of cash deposits, cash equivalents, trade and other receivables and unpaid conditional grants and subsidies.

Trade and other debtors are disclosed net after provisions are made for impairment and bad debts. Trade debtors comprise of a large number of ratepayers, dispersed across different sectors and geographical areas. Ongoing credit evaluations are performed on the financial condition of these debtors. Credit risk pertaining to trade and other debtors is considered to be moderate due the diversified nature of debtors and immaterial nature of individual balances. In the case of consumer debtors the municipality effectively has the right to terminate services to customers but in practice this is difficult to apply. In the case of debtors whose accounts become in arrears, Council endeavours to collect such accounts by "levying of penalty charges", "demand for payment", "restriction of services" and, as a last resort, "handed over for collection", whichever procedure is applicable in terms of Council's Credit Control and Debt Collection Policy.

All rates and services are payable within 30 days from invoice date. Refer to note 20 and 21 for all balances outstanding longer than 30 days. These balances represent all debtors at year end which defaulted on their credit terms. Also refer to note 20 for balances included in receivables that were re-negotiated for the period under review.

The provision for bad debts could be allocated between the different classes of debtors as follows:

	2014	2014	2013	2013
	%	R	%	R
Non-Exchange Receivables				
Rates	34.93%	37 959 167	16.10%	18 507 746
Exchange Receivables				
Services	65.07%	70 715 230	83.90%	96 426 134
	100.00%	108 674 397	100%	114 933 880

NOTES ON THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 June 2014

47 FINANCIAL RISK MANAGEMENT (CONTINUED)

The municipality only deposits cash with organisations allowed in terms of the Cash Management Policy with high quality credit standing. No cash and cash equivalents were pledged as security for financial liabilities and no restrictions were placed on the use of any cash and cash equivalents for the period under review. Although te credit risk pertaining to cash and cash equivalents are considered to be low, the maximum exposure are disclosed below.

The banks utilised by the municipality for current and non-current investments are all listed on the JSE (ABSA and Nedbank). The credit quality of these institutions are evaluated based on their required SENS releases as well as other media reports. Based on all public communications, the financial sustainability is evaluated to be of high quality and the credit risk pertaining to these institutions are considered to be low.

The risk pertaining to unpaid conditional grants and subsidies are considered to be very low. Amounts are receivable from national and provincial government and there are no expectation of counter party default.

Long-term Receivables and Other Debtors are individually evaluated annually at the reporting date for impairment or discounting. A report on the various categories of debtors is drafted to substantiate such evaluation and subsequent impairment / discounting, where applicable.

		2014 R	2013 B
Finar	ncial assets exposed to credit risk at year end are as follows:		
Rece	I term receivables sivables from exchange transactions sivables from non-exchange transactions n and Cash Equivalents	29 286 12 277 605 4 389 343 38 218 387	34 282 15 419 014 5 479 532 27 544 916
		54 914 620	48 477 743
(e) Liqu	idity Risk	Ratio	Ratio
adeq	ent liquidity risk management implies maintaining sufficient cash, the availability of funding through an juate amount of committed credit facilities. Due to the dynamic nature of the underlying business, the sury maintains flexibility in funding by maintaining availability under credit lines.		
	entity's risk to liquidity is a result of the funds available to cover future commitments. The entity manages lity risk through an ongoing review of future commitments and credit facilities.	1.15	0.92

The table below analyses the entity's financial liabilities into relevant maturity groupings based on the remaining period at the financial year end to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances as the impact of discounting is not significant.
